

**Experiment No. 01**

Semester	B.E. Semester VII – Computer Engineering
Subject	Blockchain Lab (CSDL7022)
Subject Professor In-charge	Prof. Swapnil S. Sonawane
Academic Year	2024-25
Student Name	Deep Salunkhe
Roll Number	21102A0014

**Title:**

Introduction to Ethereum and Setting Up MetaMask

**Description:**

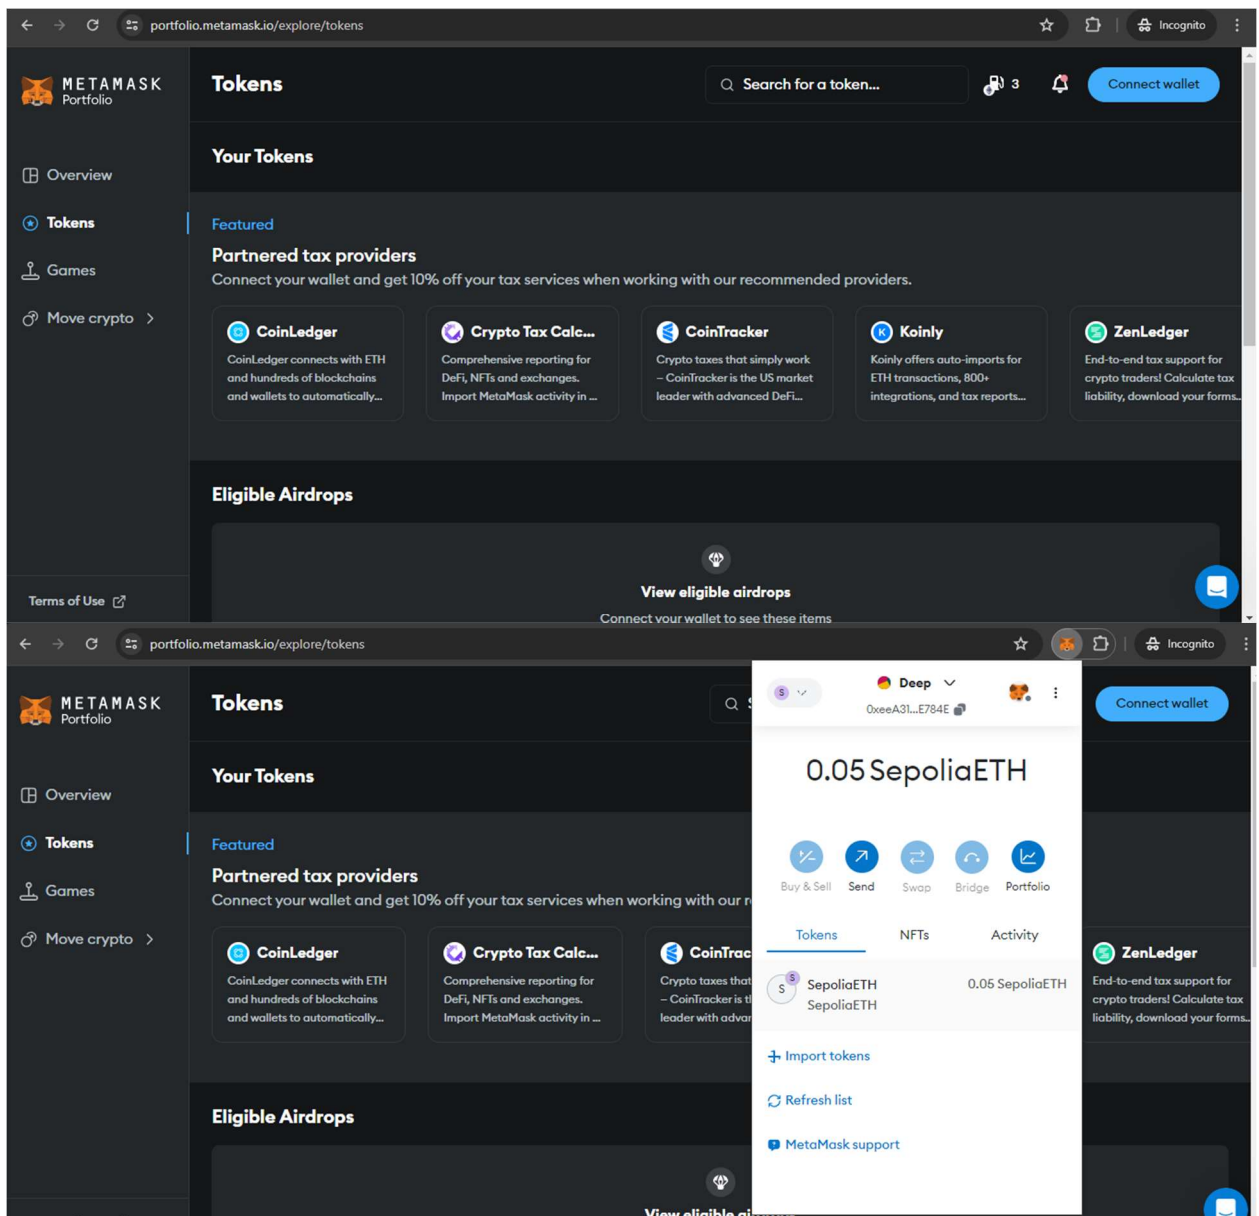

Installed MetaMask:

- Installed the MetaMask extension in a web browser and created a new wallet.
- Secured the wallet with a password and saved the backup seed phrase.

Connected to Sepolia Test Network:

- Configured MetaMask to connect to the Sepolia test network to use test Ether (SepoliaETH).
- Requested 0.15 SepoliaETH from a faucet.

**Output:**

Network

Sepolia

Token

MATIC

Wallet Address

0xxxxxxxxxxxxxxxxxxxxxxxxxxxxx

Paste

Your wallet has been greylisted for 5 minutes. The Polygon Faucet dispenses testnet tokens every 5 minutes, allowing us to ensure a sufficient balance for all users. We kindly request you to wait for 5 minutes before trying again.

\_\_\_\_\_ or \_\_\_\_\_

In the meantime, checkout [other faucets](#) to get more testnet tokens.
