

Steps for writing program in TASAM

Step 1 Edit Program

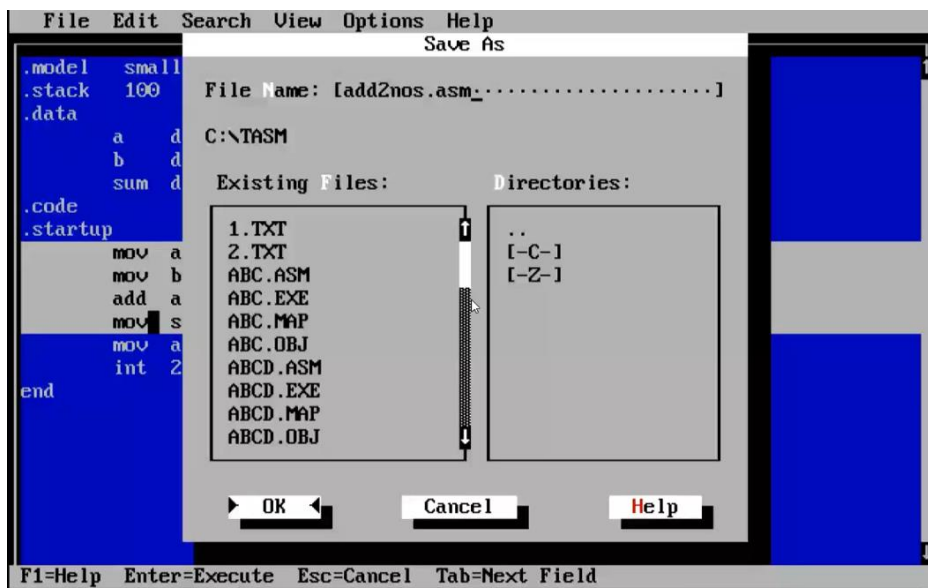

The screenshot shows the TASAM editor window titled 'UNTITLED1'. The menu bar includes File, Edit, Search, View, Options, and Help. The program code is as follows:

```
.model small
.stack 100
.data
    a db 14
    b db 20
    sum db ?
.code
.startup
    mov ax,a ;copy value of var a into al register
    mov bl,b ;copy value of var b into bl register
    add al,bl ; al = al + bl ....affects the flag
    mov sum,al ; copy result from al reg to var sum
    mov ax,4c00h ; code for normal termination of program
    int 21h ; call to s/w interrupt 21h
end
```

The status bar at the bottom indicates 'F1=Help', 'Line:18', and 'Col:4'.

Step 2 Save program

Step 3 Assemble your program

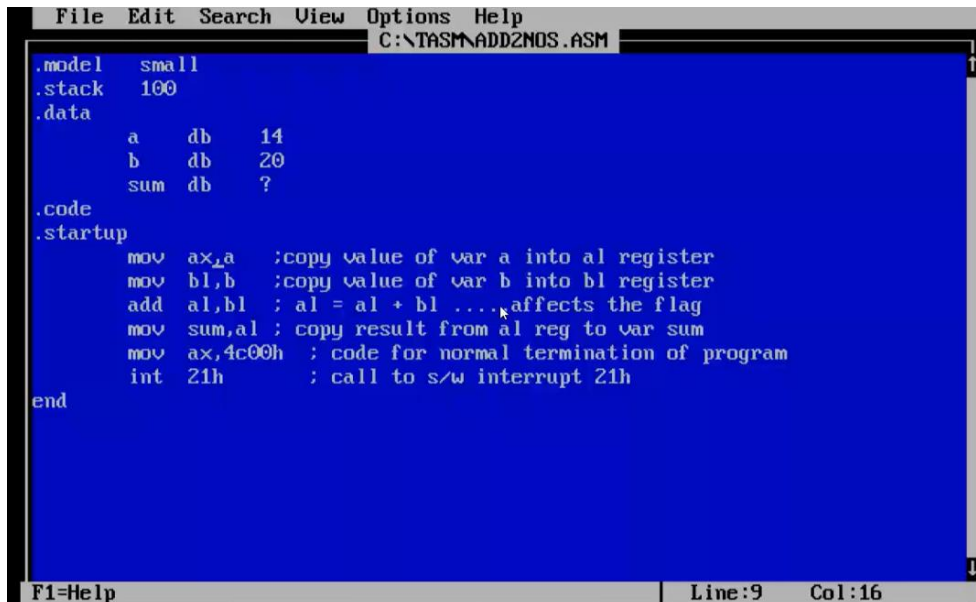

```
←
C:\TASM>edit

C:\TASM>tasm  add2nos.asm
Turbo Assembler  Version 3.0  Copyright (c) 1988, 1991 Borland International

Assembling file:  add2nos.asm
Error messages:   None
Warning messages: None
Passes:          1
Remaining memory: 476k

C:\TASM>_
```

Lets see if make some mistake

```
File Edit Search View Options Help
C:\TASM\ADD2NOS.ASM

.model    small
.stack    100
.data
    a      db      14
    b      db      20
    sum     db      ?
.code
.startup
    mov     ax,a      ;copy value of var a into al register
    mov     bl,b      ;copy value of var b into bl register
    add     al,bl     ; al = al + bl ....affects the flag
    mov     sum,al    ; copy result from al reg to var sum
    mov     ax,4c00h  ; code for normal termination of program
    int     21h       ; call to s/w interrupt 21h
end

F1=Help Line:9 Col:16
```

See how assembles make you understand where is the error and what is the error

```
←
C:\TASM>tasm add2nos.asm
Turbo Assembler Version 3.0 Copyright (c) 1988, 1991 Borland International

Assembling file: add2nos.asm
Error messages: None
Warning messages: None
Passes: 1
Remaining memory: 476k

C:\TASM>edit add2nos.asm

C:\TASM>tasm add2nos.asm
Turbo Assembler Version 3.0 Copyright (c) 1988, 1991 Borland International

Assembling file: add2nos.asm
**Error** add2nos.asm(9) Operand types do not match
Error messages: 1
Warning messages: None
Passes: 1
Remaining memory: 476k
```

Step 4 :Link your Program

```
Directory of C:\TASM\
.                <DIR>                22-02-2021 17:01
..               <DIR>                10-07-2018 12:01
1               TXT                   625 18-07-2018 18:17
2               TXT                   965 18-07-2018 18:37
ABC             ASM                   105 19-06-2020 17:02
ABC             EXE                   606 29-07-2019 15:33
ABC             MAP                   232 29-07-2019 15:33
ABC             OBJ                   219 19-06-2020 17:02
ABCD            ASM                    92 26-07-2018 13:02
ABCD            EXE                   547 26-07-2018 13:02
ABCD            MAP                   203 26-07-2018 13:02
ABCD            OBJ                   230 26-07-2018 13:02
ADD2            ASM                   1,091 20-01-2013 15:12
ADD2            EXE                   694 20-01-2013 15:13
ADD2            MAP                   282 20-01-2013 15:13
ADD2            OBJ                   382 20-01-2013 15:13
ADD2NOS         ASM                   490 22-02-2021 17:00
ADD2NOS         OBJ                   282 22-02-2021 17:01
ADD32           ASM                   295 27-07-2018 12:29
ADD32           EXE                   572 27-07-2018 12:29
ADD32           MAP                   232 27-07-2018 12:29
ADD32           OBJ                   311 27-07-2018 12:29
Press any key to continue.
```

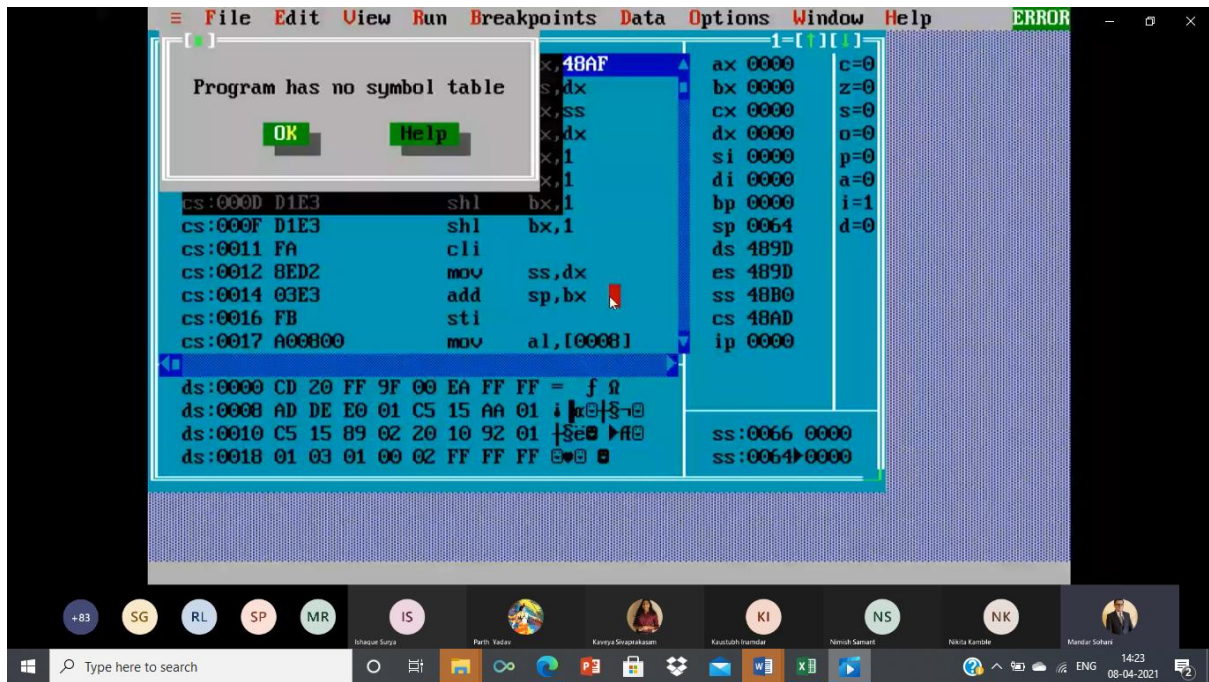

```
C:\TASM>tlink  add2nos.obj
Turbo Link  Version 2.0  Copyright (c) 1987, 1988 Borland International

C:\TASM>_
```

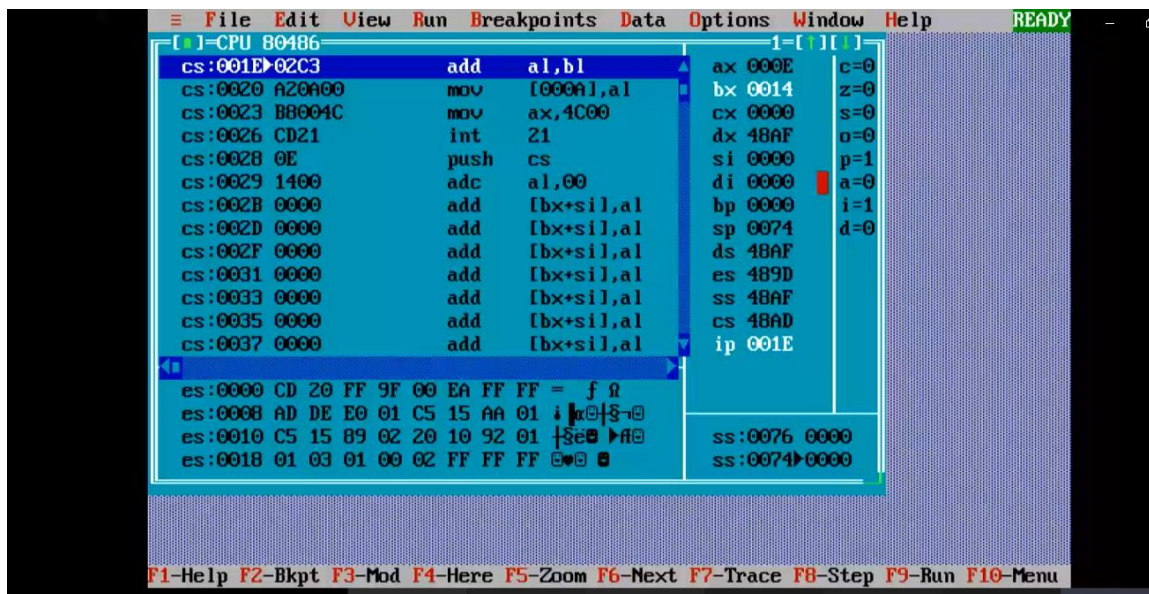

Step 5 Execute your program

```
←
C:\TASM>tlink  add2nos.obj
Turbo Link  Version 2.0  Copyright (c) 1987, 1988 Borland International

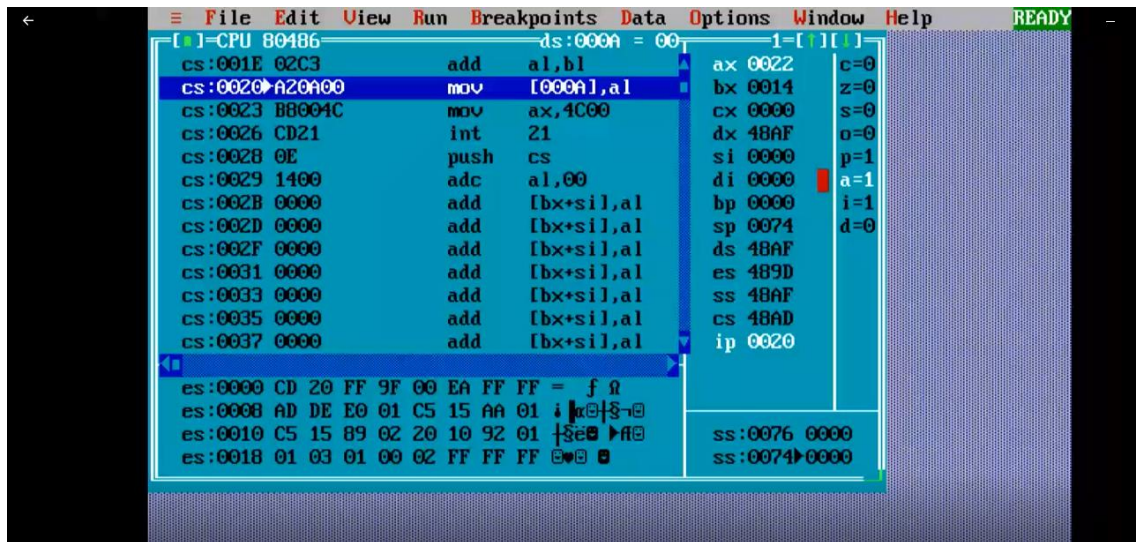

C:\TASM>td  add2nos.exe
```

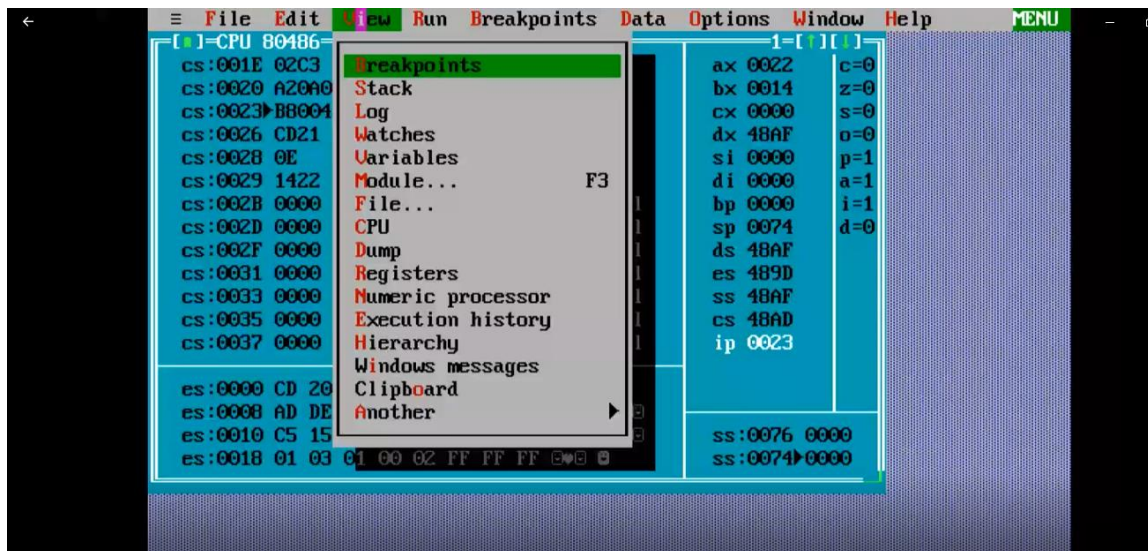

Move both numbers

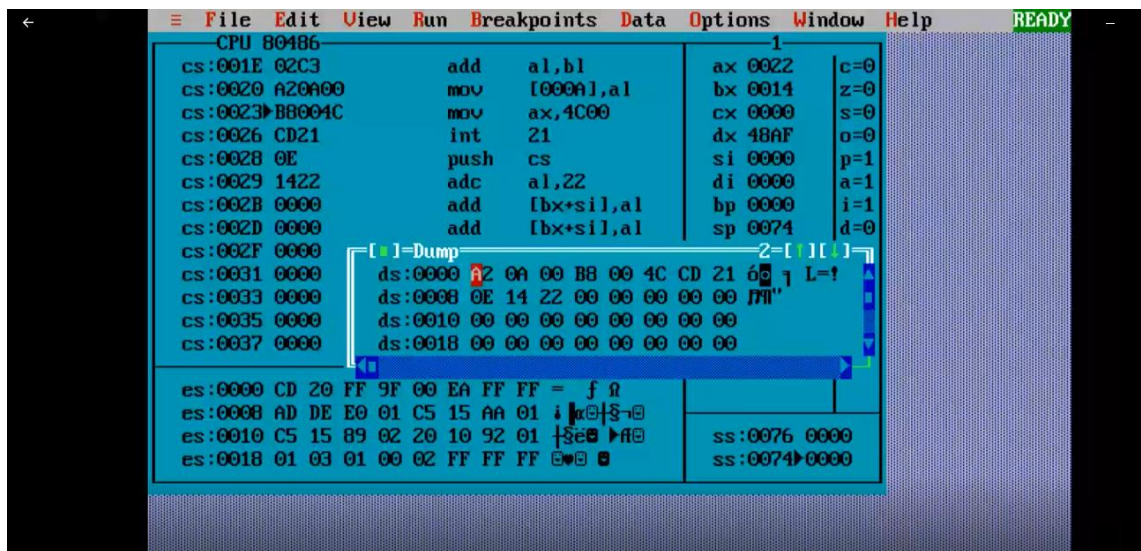

Add both numbers

Go to view option n check data segment content

Check all the operands in data segment

Terminated the program successfully
